Subject: Resume Leo Schneider

Mayor Steingold,

I understand that there is an opening on the City Commission and that a search for someone to fill the position temporally is underway. I would like to add my name to your list of applicants.

My family has been long time residents of this area. My parents lived in Clearwater since the sixties. I personally have made Safety Harbor my primary residence since the mid nineties. My children attended school in Safety Harbor and the local high school.

I spent the last four years working contracts in some rather harsh environments. No that I have returned to the US I plan never to leave this country again. This is the time in my life where I hope use the lessons I have learned and the skills that I have acquired to help my community to move forward. My experience is rather unique. Communication has become one of my most powerful skills. Facilitating negotiations for complex contracts has allowed me to develop tools for dealing with diverse groups from government agencies, to the military, to primary and secondary contractors. These tools coupled with my project management experience perfectly equip me to make a significant contribution to this community.

My travels have taken me all across the world and I was both surprised and pleased to discover that in Switzerland at least several people knew of our fair city. It was disconcerting to say the least to have a client who seemed to know more about my home town than I did. Since then I have corrected that situation by frequent visits to the Safety Harbor Spa. I have even tasted some of the "wondrous" waters.

I have attached my resume. Please feel free to pass it on to whoever you feel appropriate.

9/28/2006

Best regards,

Leo Schneider
